

1 / 6

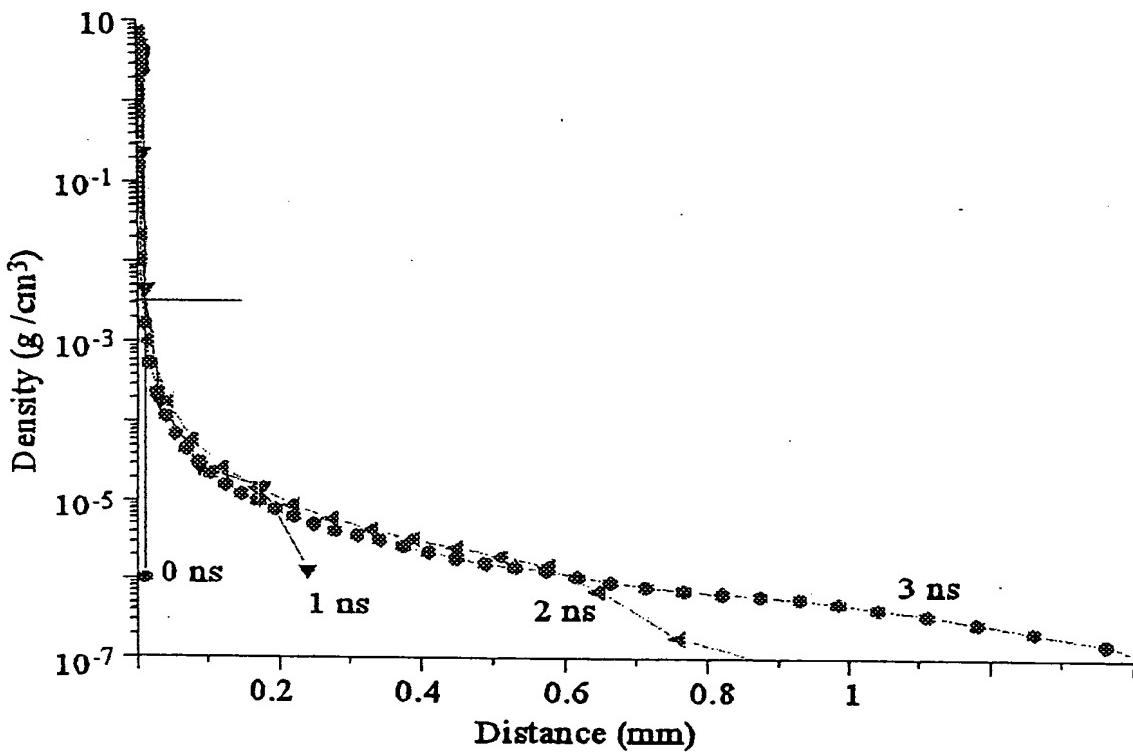

F I G . 1

Temporal progress of density profile when sphere target of $20 \mu\text{m}$ diameter is irradiated with laser

2 / 6

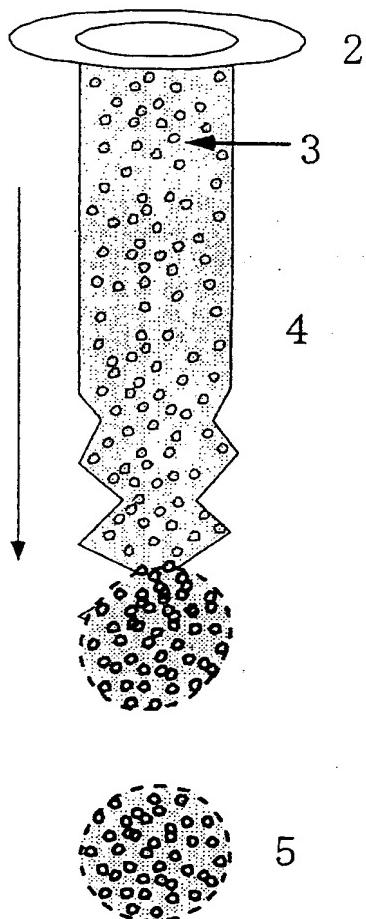

FIG. 2

Temporal progress of density profile when sphere target of $20 \mu\text{m}$ diameter is irradiated with laser

3 / 6

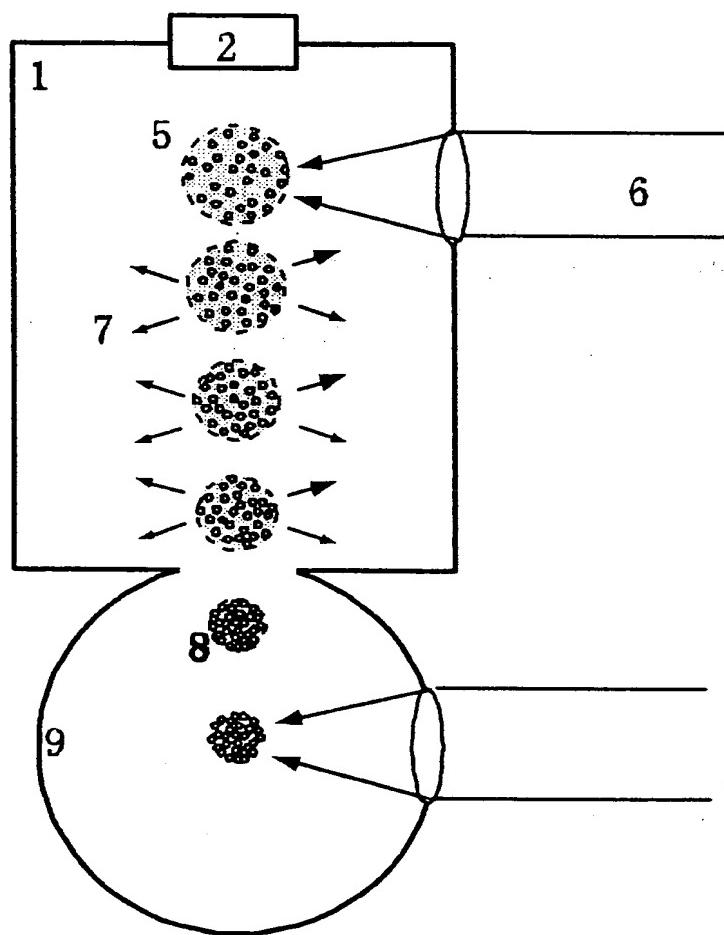

F I G . 3

Production of droplets of suspension including ultrafine particles

4 / 6

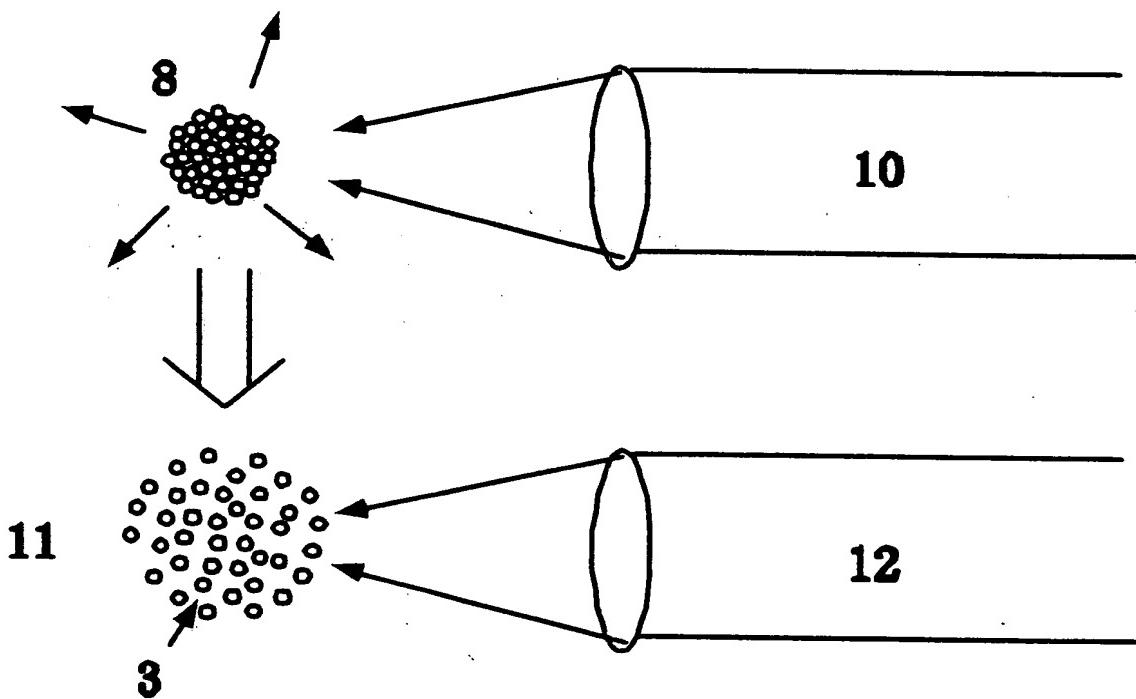

FIG. 4

Formation of particle-cluster

5 / 6

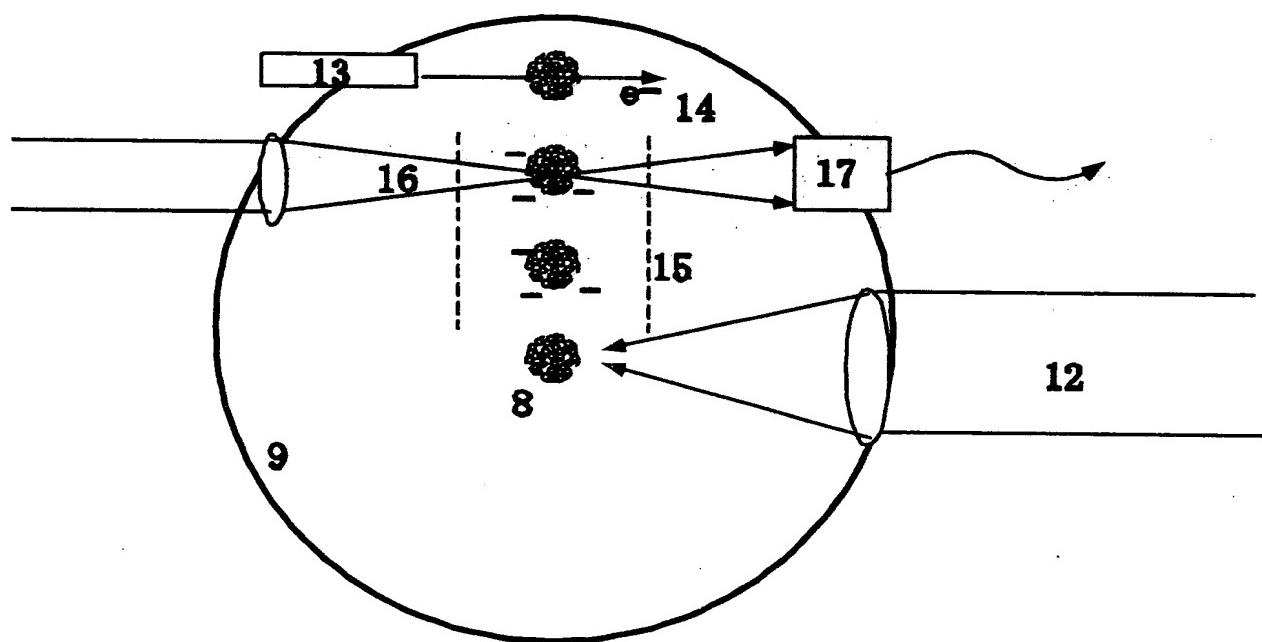

FIG. 5

Dispersed particles of cluster strongly irradiated with pulsed laser

6 / 6

F I G . 6

Control of trajectory of particle-cluster
